RE: Approved Rebreather Training Standards

The RESA members would like to announce that they are endorsing the ISO Rebreather Training Standards including the ISO Instructor Standard (2024), as the minimum standard. Standards are listed below. RESA manufacturers are free to approve stricter standards, as they see fit.

ISO 24804:2022 Recreational diving services. Requirements for rebreather diver training. No-decompression diving

ISO 24805:2022+A11:2024 - Recreational diving services. Requirements for rebreather diver training. Decompression diving to 45 m

ISO 24806:2022 - Recreational diving services — Requirements for rebreather diver training — Decompression diving to 60 m

ISO 24807:2022 - Recreational diving services — Requirements for rebreather diver training — Decompression diving to 100 m

ISO24807:2024 - Recreational diving services — Requirements for rebreather instructor training

RESA reserves the right to review and approve any future modifications.

Best regards,

Kim Mikusch
